

DIGITAL 2024 **BUILT INDIA**

2nd National Summit on BIM & Inclusive Infrastructure Digitalization
22-23 November 2024, IIT Bombay

DIGITAL 2024 **BUILT INDIA**

In the Making of Digital Built Environment for Viksit Bharat @2047

India's infrastructure development is at a crucial juncture in its journey to becoming a \$26 trillion economy. The government has made significant investments, with the Interim Budget for 2024-25 increasing the capital investment outlay for infrastructure by 11.1% to ₹11.11 lakh crore (US\$ 133.86 billion), accounting for 3.4% of the GDP. The government's focus on future-ready infrastructure is evident through initiatives like the Gati Shakti National Master Plan. This \$1.3 trillion digital platform integrates 16 ministries to drive systemic reforms and improve coordination in infrastructure projects. The progress under Gati Shakti has been promising, contributing to India's growing role in global digital content production, particularly in the construction and allied infrastructure sectors. India now contributes at least 25% of global digital content production in this space and is a preferred destination for engineering and design services, with IT and ITES service providers playing a significant role in global digital content delivery.

Digital Built India (DBI) is the annual flagship conference organized by CDCPIndia and the buildingSMART India. It is a first of its kind, an NGO-driven, vendor neutral event rising above the noise and ensuring that the focus remains firmly on inspiring AECO community & infrastructure stakeholders for adopting digital technologies & processes and neutral learning opportunity in the digital built environment.

The second edition of Digital Built India 2024 is scheduled for November 22-23, 2024 in Mumbai.

DIGITAL 2024 BUILT INDIA

DBI is our community initiative built around the fundamental aspects of the 'INDIA Strategy'

CDCPIndia has developed a strategy for inclusive infrastructure digitalization - the **INDIA Strategy**. The philosophy of 'Democratization of Data' and having 'Empathy for All Implementing Stakeholders' is at the core of the strategy.

I

Inspire

& onboard community bringing about a behavioral change within the community in adopting digitalization.

N

National

mandate which are inclusive, effective, neutral and with empathy for the implementing stakeholders.

D

Democratization

of data in the information ecosystem by maintaining a transparent, open and real-time single source of truth.

I

Incentivizing

the stakeholders, recognizing the fact that there are unequal players, and the weaker player are in majority.

A

Aid

for the stakeholders to help them navigate the transitional impact of adopting several digital Tools, technologies and processes.

Agenda

DAY 1 - 22 NOVEMBER, 2024

Time	Main Event (Auditorium)	Seminar Hall 1	Seminar Hall 2	Board Room
09:00 – 10:00	Registration			
10:00 – 11:00	Inaugural Session & Keynotes			
11:00 – 11:30	India's Infrastructure Vision and Our Digital Initiatives			
11:30 – 11:45	Tea/Coffee Break			
11:45 – 13:15	<p>Disruptive Digital Technologies and Its Impact on Traditional Business Processes</p> <p>New technologies such as BIM, AI, Robotics, are enabling more efficient project planning, design, and execution, leading to cost savings, improved safety, and enhanced productivity. For instance, BIM allows for accurate 3D modeling and real-time collaboration, reducing errors and rework. This session will deliberate on how these tech advancements are challenging traditional methods, pushing the industry towards more integrated, data-driven approaches that enhance overall project outcomes.</p>	<p>DBI 24 Hackathon</p> <p>Bug Finding</p>	<p>openBIM Master Class</p> <p>Session 1</p>	<p>Industry Roundtable 1</p> <p>Government, Owner Operators (Public & Private), and Policy Makers</p>
13:15 – 14:15	Lunch			
14:15 – 15:45	<p>Digital Transformation: Risks and Mitigation Strategies</p> <p>Digital transformation in the construction industry brings significant opportunities, but it also introduces risks, such as cybersecurity threats, data privacy concerns, and technology integration challenges. Data security issues can lead to data loss or project delays at the national level, while integrating new technologies with existing systems can cause disruptions. To mitigate these risks, the session will dwell upon the necessary counter measures, clear data governance policies, minimizing disruptions and enhancing overall project efficiency.</p>	<p>DBI 24 BIMathon</p> <p>Model Making</p>	<p>openBIM Master Class</p> <p>Session 2</p>	<p>Industry Roundtable 2</p> <p>Technology Firms, SI & BIM Consultants</p>
15:45 – 16:00	Tea/Coffee Break			
16:00 – 17:30	<p>Digital Standards & Policies: Critical to Achieve Our Infrastructural & Economic Goals</p> <p>Digital standards and policies are crucial for India to achieve its infrastructural and economic goals, as they provide a unified framework for efficient technology adoption and integration across sectors. By establishing clear digital guidelines, India can enhance transparency, optimize resource utilization, and attract foreign investments, accelerating its journey to becoming a \$26 trillion economy.</p>	<p>DBI 24 Clashathon</p> <p>Coordination Contest</p>	<p>openBIM Master Class</p> <p>Session 3</p>	<p>Industry Roundtable 3</p> <p>Construction Firms and Builders/Developers</p>
17:30 Onwards	Closing Remarks			
19:00 – 21:00	Networking Dinner (By Invitation only)			

DIGITAL 2024 BUILT INDIA

Agenda

DAY 2 - 23 NOVEMBER, 2024

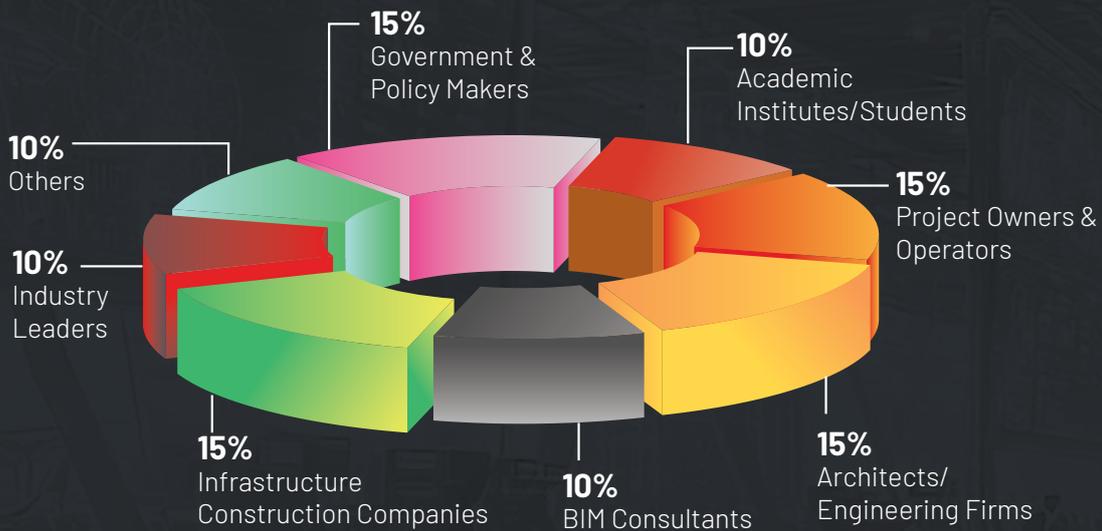

Time	Main Event (Auditorium)	Seminar Hall 1	Seminar Hall 2	Board Room
09:30 – 10:00	Registration			
10:00 – 10:30	Inaugural Session			
10:30 – 11:00	Overhauling the Education System to make it Industry Ready			
11:00 – 11:30	Onboarding India to openBIM certification			
11:30 – 11:45	Tea/Coffee Break			
11:45 – 13:15	<p>Challenges of BIM & Digital Initiatives on Architecture & Engineering Business: Pros & Cons</p> <p>This session will explore the challenges and opportunities associated with BIM and digital initiatives in the Indian AEC industry. While BIM offers significant advantages, such as improved collaboration, enhanced design accuracy, and streamlined project management, its adoption in India faces hurdles like skill gaps, lack of awareness, resistance to change from traditional practices. However, embracing these technologies can lead to better project outcomes and reduced errors.</p>	<p>DBI 24 Paprep</p> <p>Session 1</p> <p>Paper Presentation</p>	<p>openBIM Master Class</p> <p>Session 4</p>	<p>Industry Round Table 4</p> <p>Academica, Colleges and Universities</p>
13:15 – 14:15	Lunch			
14:15 – 15:45	<p>Digital Technologies & Processes for Achieving Sustainability Goals</p> <p>India is recognizing the need to develop resilient and sustainable infrastructure in the wake of rising economic losses from disasters and climate change. Digital technologies and processes play a pivotal role in helping the Indian construction industry achieve sustainability goals. BIM, Digital Twins, sensors can help in reducing the carbon footprint of construction activities. Additionally, they can improve the longevity of infrastructure and minimizing resource consumption. The session will discuss how these digital solutions support sustainable construction practices, aligning the industry with India's broader environmental and economic sustainability objectives.</p>	<p>DBI 24 Paprep</p> <p>Session 2</p> <p>Paper Presentation</p>	<p>openBIM Master Class</p> <p>Session 5</p>	<p>Industry Round Table 5</p> <p>Design, Engineering and Project Management</p>
15:45 – 16:00	Tea/Coffee Break			
16:00 – 17:00	DBI 2024 Awards			
17:00	Closing Remarks followed by Refreshments			

Who will attend DBI 2024

Industry thought leaders	Government policy makers & infrastructure implementing ministries/departments	Project owners & operations
Developers & design build firms	Architects & master planners	Academic institutes
BIM & engineering consultants	Infrastructure construction companies	Real estate developers
Building product manufacturers	Professional/Industry associations	System integrators & general consultants

Why attend DBI 2024

High-level Delegates Mix

openBIM Masterclasses

buildingSMART International's and buildingSMART India's experts will conduct masterclasses to explore the ways in which openBIM can augment the efficiency of designing, constructing, and operating built asset, facilitating practitioners.

Hackathons & Modelling Competitions

For the first time in the DBI 2024, live BIM Modelling Competitions and Hackathons will be organized (powered by the OEMs).

Awards

Recognise, celebrate, and appreciate the hard work, talent, and accomplishments of the infrastructure and construction industry professionals.

Networking Opportunities

We offer almost 12+ networking hours during the course of the conference. Get connected to the experts and fellow peers from the construction and infrastructure sector, in addition to potential partners, developers, realtors, service providers, vendors, and more.

Industry Roundtables & Leadership Presentations

Curated, off-record industry roundtables discussions led by industry experts and analysts on specific topics.

Brand Positioning

There are various sponsorship opportunities available for your branding purposes, in addition to the exhibition space up for grab!

Sponsorship Opportunities

SI No	Partnership Categories	Strategic Partners	Premiere Partners	Associate Partners	Supporting Partners	Theme Partners
A	Visibility & Display Space					
1.	Logos in All Digital Branding Materials & Websites	✓	✓	✓	✓	✓
2.	Dedicated Exhibition Stall (Shell Only)	✓	✓			
3.	Dedicated Exhibition Table Only			✓		
4.	Dedicated Theme-based Brand Visibility					✓
5.	Print Visibility at Stage & Main Auditorium	✓	✓	✓	✓	✓
6.	Print Visibility in All Side Events	✓	✓			✓*1
B	Stage Presence					
1.	Felicitation During Innaugural Function as Guest of Honor	✓				
2.	2. 5 Mins. Presentation Slot (Speaking + Video)	✓				
3.	Recommendation for 1 Panel Speaker in Any One of the Tracks	✓				
4.	2 Mins. Video During Any One Track		✓			✓*2
5.	1 Slide in a Running Sponsor Slideshow During Break	✓	✓	✓	✓	✓
6.	Felicitation During Concluding Ceremony	✓	✓	✓	✓	✓
C	Event Passes & Other Benefits					
1.	Delegate Passes for the 2 Day Event	6	4	2	1	2
2.	Special Invite for the Cocktail Dinner Party	6	4	2	1	2*3
3.	Free Tickets to openBIM Masterclass	4	2	1	1	1
4.	Invitation for the Industry Round Table	4	2	1	1	1
5.	Free CDCPIndia & buildingSMART India Individual Membership	6	3	1	1	1

* 1 - Theme partners visibility limited to their respective theme.

*2 - Applicable to theme/roundtable sponsor.

*3 - Cocktail dinner sponsor is entitled to 6 passes.

- Membership discount can be availed for sponsorship.
- Sponsors shall only have the ability to recommend a good speaker (not from within the sponsor organization). Selection of those speaker to the event and panel will purely depend on the merit and final decision of the Selection Committee. Since this is a Vendor Neutral Event, products and services promotion/presentation shall not be included in the presentations/panel discussions. However, visibility and branding to the event sponsors shall be provided.

About

Organizers

Confederation of Digital Construction Practitioners India

The Confederation of Digital Construction Practitioners India (CDCPIndia) is a registered non-government, not-for-profit, non-commercial, democratic and vendor-neutral national society that promotes digital built environment in construction and infrastructure industry empowering India's 'Viksit Bharat @2047' vision. Founded in 2020 by veterans and industry leaders, CDCPIndia brings a diversified, mature and professional perspective and the collective wisdom & their desire to give back to the society is one of the key strengths and advocate implement digital technologies and processes in the Infrastructure Sector. Our primary goal is to collaborate with various industry bodies, professional bodies of AECO community, academia, corporations engaged in the Infrastructure Industry and the government to accelerate the use of digital technologies and processes.

buildingSMART India

buildingSMART India is a national-level initiative of CDCPIndia in collaboration with buildingSMART International (bSI) aimed at promoting the use of openBIM standards and interoperability across the life cycle of any built environment. The purpose of the buildingSMART India chapter is to provide an inclusive and collaborative discussion forum for the Indian AECO community to take part in the development and implementation of global open digital standards and services that can help enhance automation and improve the decision-making process, further helping to achieve the objectives of sustainability and productivity.
